Buy Cambodian Products!

The Cambodian economy was transformed into a free market in the late 1980s. Local enterprises, small and micro businesses have sprung up throughout the country. It is now time to compete with the world -- and to cooperate. The ILO and its partners, the Artisans Association of Cambodia (AAC), Phnom Penh Small and Medium Industry Association (PSMIA), Phnom Penh City Hall and Ministries of Commerce, Industry and Women Affairs, are supporting an exhibition where local producers will display their products, artisans will demonstrate their skills, and artists will render traditional performances. This exhibit is a proud display of Cambodian products and skills and at the same time an invitation to potential patrons and clients.

When : From April 24th to 26th 2009

Where : The exhibit will take place in Phnom Penh at the Night market (Phsar Reatrey), next to Old Market.

Who : Open to the public
